W.R. A/D ENAMEL - CT ORANGE

Page: 1 3/22/2012

PRODUCT NAME: W.R. A/D ENAMEL - CT ORANGE HMIS CODES: H F R P

PRODUCT CODE: 89-7195-I-12 2 2 1 B

MANUFACTURER'S NAME: THE CONTINENTAL PRODUCTS COMPANY

ADDRESS : 1150 East 222 Street, Euclid, OH 44117

EMERGENCY PHONE : (800)255-3924 DATE PRINTED : 3/22/2012 INFORMATION PHONE : (216)531-0710 NAME OF PREPARER : John Stevens

<sup>\*</sup> Indicates toxic chemical(s) subject to the reporting requirements of section 313 of Title III and of 40 CFR 372.

# MATERIAL SAFETY DATA SHEET

W.R. A/D ENAMEL - CT ORANGE

Page: 2 3/22/2012

+ indicates toxic chemical(s) subject to the reporting requirements of section 311 and 312 of Title III and of 40 CFR 372

# Indicates a Chronic hazard. See warning (if applicable) in Section IX.

CONTACT CONTINENTAL PRODUCTS COMPANY IF CALIFORNIA PROPOSITION 65 INFORMATION IS NEEDED.

======== SECTION III - PHYSICAL/CHEMICAL CHARACTERISTICS ==========

BOILING RANGE: 211 F - 212 F SPECIFIC GRAVITY (H2O=1): 1.1039 VAPOR DENSITY: HEAVIER THAN AIR EVAPORATION RATE: SLOWER THAN ETHER

COATING V.O.C.: 1.7702 lb/gl MATERIAL V.O.C.: 0.8771 lb/gl

SOLUBILITY IN WATER: READILY SOLUBLE

ODOR: CHARACTERISTIC PAINT ODOR APPEARANCE : ORANGE LIQUID

======= SECTION IV - FIRE AND EXPLOSION HAZARD DATA =========

FLASHPOINT: >200F. METHOD USED: SETAFLASH FLAMMABLE LIMITS IN AIR BY VOLUME- LOWER: n/a UPPER: n/a

### EXTINGUISHING MEDIA:

Carbon Dioxide, dry chemical or foam. If water, fog nozzles preferred.

#### SPECIAL FIREFIGHTING PROCEDURES

Water may be used to cool closed containers to prevent pressure build-up when exposed to extreme heat. Firefighting personnel should wear self-contained breathing apparatus.

#### UNUSUAL FIRE AND EXPLOSION HAZARDS

Air oxidation of this product may cause it to spontaneously ignite. To avoid spontaneous combustion, soak soiled rags, spray booth filters, and overspray wastes in a water-filled metal container. Isolate from heat, electrical equipment, sparks, and open flame.

### STABILITY:

Stable

# CONDITIONS TO AVOID

Heat, sparks, open flame and fire. Material is subject to freezing. Do not store above 120 Degrees Fahrenheit.

# INCOMPATIBILITY (MATERIALS TO AVOID)

Strong oxidizing agents.

# HAZARDOUS DECOMPOSITION OR BYPRODUCTS

BY FIRE: Normal products of incomplete combustion. May produce fumes when heated to decomposition, as in welding. Fumes may contain carbon monoxide/dioxide or oxides of nitrogen.

#### HAZARDOUS POLYMERIZATION:

WILL NOT OCCUR

# INHALATION HEALTH RISKS AND SYMPTOMS OF EXPOSURE

May cause headache, nausea, eye or skin irritation. (Material is slightly alkaline.)

# CARCINOGENICITY: NTP CARCINOGEN: No

### MATERIAL SAFETY DATA SHEET

W.R. A/D ENAMEL - CT ORANGE

Page: 3 3/22/2012

IARC MONOGRAPHS: Yes OSHA REGULATED: No

#### MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE

Repeated exposure to emitted vapors may cause irritation to the upper respiratory tract. Preexisting skin sensitation may be aggravated.

### EMERGENCY AND FIRST AID PROCEDURES

INHALATION: Remove to fresh air. Administer artificial respiration or oxygen if breathing is difficult. Call for prompt medical attention. EYES: Flush immediately with large amounts of water for at least 15 minutes. Get medical attention. SKIN: Wash affected area with soap and water. Remove and launder contaminated clothing. Consult a physician if irritation persists. INGESTION: Do not induce vomiting unless instructed by a physician. Keep at rest. Call a physician immediately.

#### ======= SECTION VII - PRECAUTIONS FOR SAFE HANDLING AND USE =========

# STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Dike spill area. Ventilate area if necessary. Recover free liquid by addition of inert absorbent to spill area. Sweep up and place material in a suitable disposal container. Wash down spill area with copius quantities of water. Wet floors may be slippery. Post appropriate warnings.

### WASTE DISPOSAL METHOD

Disposal must be made in accordance with Local, State, and Federal regulations. Incineration is recommended and must be in an approved facility. Do not incinerate closed containers.

# PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING

Store out of the sun and away from heat, sparks, and open flame. Keep containers closed and upright to prevent leakage. Do not store below 40 Degrees Fahrenheit or above 120 Degrees Fahrenheit for extended periods. Do not reuse product container for any purpose.

# OTHER PRECAUTIONS

Do not get in eyes. Avoid skin contact. Do not take internally. Prevent prolonged or repeated breathing of vapor or spray mist. Keep out of reach of children.

# 

### RESPIRATORY PROTECTION

Observe the OSHA Respiratory Protection Standard (29 CFR 1910.134) for respirator selection and use. Selection of the most appropriate respirator will depend on the specific work environment and should be made only by a person familiar with the working conditions and with the benefits and limitations of respiratory protection products.

#### **VENTILATION**

Ventilation should dilute to below LEL and TLV to be considered adequate. All applications areas should be ventilated in accordance with the applicable regulations found in 29 CFR, Part 1910.

Respiratory protection should be provided in accordance with the OSHA Standards listed above under Respiratory Protection.

## PROTECTIVE GLOVES

Recommended if skin contact is likely.

### MATERIAL SAFETY DATA SHEET

W.R. A/D ENAMEL - CT ORANGE

Page: 4 3/22/2012

### EYE PROTECTION

Chemical goggles or safety eyewear with splash shields is recommended.

### OTHER PROTECTIVE CLOTHING OR EQUIPMENT

Suitable barrier cremes, impervious clothing and boots are recommended to reduce repeated contact with material and limit contamination.

### WORK/HYGIENIC PRACTICES

Wash hands with soap and water before eating or using the washroom. Smoke in smoking areas only. Remove and wash contaminated clothing before reuse.

# 

Titanium Dioxide - IARC concludes there is inadequate evidence for the carcinogenicity of titanium dioxide in humans and sufficient evidence for the carcinogenicity of titanium dioxide in experimental animals. IARC's overall evaluation is titanium dioxide is possibly carcinogenic to humans (Group 2B). (IARC Monographs VOL 93(2006) TITANIUM DIOXIDE)

All components used in the manufacture of this product are listed in the TSCA inventory.
